PIKEVILLE COLLEGE

HISTORY

FIFTY-NINE YEARS ago Ebenezer Presbytery in the Synod of Kentucky, Presbyterian Church, U. S. A., appointed a committee consisting of Rev. W. C. Condit, D. D., Ashland, Kentucky, and Rev. Samuel B. Alderson, D. D., Maysville, Kentucky, to make a trip up the Big Sandy River to select a location for a school for the higher education of the youth of this section. After visiting each county seat in the valley, their judgment was that Pikeville should be selected as the location for such an institution and, as the result of their report to Presbytery, the Pikeville Collegiate Institute was established. The subsequent development of Pikeville and Pike County has demonstrated the wisdom of these men in making their choice for the location of the Presbyterial School.

The success with which the institution has been crowned has been due in no small measure to the untiring efforts of Dr. Condit and his church. He was a member of the Board of Trustees from the date of its organization to the time of his death, and was ever alive to the interests of the school.

In the summer of 1889 the first building was erected and Rev. David Blyth, who had just graduated from Lane Seminary, was placed in charge as principal and also as pastor of the church. Mr. Blyth was a man of great energy, and during the three years of his incumbency the school made rapid progress and took first rank among the best schools of its grade in Eastern Kentucky. Hendricks Hall was erected during his incumbency. A severe attack of typhoid fever left Mr. Blyth unable to continue the work. His three years of effort were

not in vain; the people speak in the highest terms of the work he did while here. His death occurred on December 5, 1940.

Until 1896 the institution was affected by unfavorable conditions throughout the nation. During the principalship of Reverend Harvey Hammett, and two years later during the term of the Reverend T. M. Cornelison, progress was made. However, the future of the institution began to be entirely assured as the devotion and personality of Reverend James F. Record began to express themselves. Assuming the headship of the institution in 1899 he continued without interruption for twelve years and attendance practically quadrupled. Reverend J. P. Whitehead was president of the college from 1911 to 1915, at which time Dr. Record returned.

Of the first trustees of the institution, none are now living. The members of the first Board of Trustees were Rev. W. C. Condit, D. D., Rev. W. S. Fulton, D. D., Mr. W. M. Connolly, Mr. John Simpson, Mr. James H. Hatcher, Mr. Charles M. Parsons and Mr. F. B. Trusell. The records of the college reveal constantly the devotion and wisdom of this unusual body of trustees. The possibilities of Pikeville College touched their imaginations, and most of them gave generously of their time and means to its support.

When Dr. Record resumed the presidency of the institution, which was now invariably spoken of as "the college," he was beginning a term of uninterrupted service lasting seventeen years. Made president emeritus by the action of the Board of Trustees in September, 1932, his counsel was not withdrawn from the college until his death on May 25, 1935. The expansion of the institution during Dr. Record's term was outstanding. In 1918 one student pursued college courses; fourteen years later the college enrollment was 366. Not only was the preparatory department admitted to membership in the Southern

Association of Colleges and Secondary Schools in 1925, but the college work of the institution was recognized and the junior college became a member in 1931.

Wickham Chapel, in the administration building, and Wickham Hall were the magnificent gifts of Mrs. Delos O. Wickham of New York. It is difficult to over-estimate the influence of the gifts of this devoted friend of the college throughout Dr. Record's administration. In addition to these buildings erected, the institution was bequeathed a considerable portion of her estate in 1933. Wickham Chapel stands perpetually as a living memorial to Delos O. Wickham, her husband.

Another magnificent gift to Pikeville College came from John A. Simpson, of Covington, in memory of his sister, Lucinda Derriana Simpson, in the form of a commodious dormitory for women. Mr. Simpson had in mind a Christian home for women and provided that the dormitory be called "The Derriana."

The late Mrs. William Thaw, of Pittsburgh, was another constant friend of the institution during Dr. Record's presidency, being a very generous donor to the administration building.

Hendricks Hall, the first building erected on the old campus beside the Big Sandy River, commemorates the name and important work of the Reverend Dr. James P. Hendricks, Synodical Superintendent of Home Missions. The second building to be erected on the "old campus" was the brick building now occupied by the training school.

Dr. D. McDonald, successor to Dr. Hendricks as Synodical superintendent, was another loyal supporter and constant adviser of the institution. The Woman's Missionary Societies of Ebenezer Presbytery made much of Pikeville College in their

programs of prayer and work; their contributions and interest provided a constant source of encouragement to trustees and faculty.

Dean Frank D. McClelland was made acting President of the college in September, 1932, and became president in October, 1933.

During the year following Dr. McClelland's resignation in October, 1937, the institution functioned without a president. Mr. Norman A. Chrisman, treasurer of the college, devoted much of his time to the institution's activities, serving in many capacities as acting president without the actual title. During this year Mrs. N. A. Chrisman, Mrs. W. H. Kirk, and Mr. H. C. Bowles effected notable expansion of the library facilities, providing new furniture and new quarters for the library in memory of their mother, Mrs. Nona Connolly Bowles, a member of the first graduating class of the Academy. A grant of \$3,000 from the Carnegie corporation for library books, coupled with the new equipment, combined to make the library one of the notable features of the college.

In September, 1938, President H. M. Crooks, LL. D., assumed the presidency of the institution and served until his resignation in October, 1940.

Dean A. A. Page assumed ex-officio the duties of the President of the college in October, 1940, following Dr. Crooks' resignation. In October, 1941, Dean Page was elected President of the college.

Purposes Of The Institution

"The purpose of the promoters and founders of Pikeville Collegiate Institute was to offer an opportunity to the youth of Eastern Kentucky for the higher education at an expense within the reach of all. The very low rates at which a young man or

woman may fit himself or herself for entrance to college, for teaching, or for business are made possible not by cheapening the school in any particular, either in its teaching force or its equipment. These low rates are made possible only through the generosity of the friends of Christian education."

The foregoing paragraph is quoted from the catalogue of Pikeville Collegiate Institute. The Articles of Incorporation were amended with the approval of the Synod of Kentucky, in October, 1909, making this a chartered college, empowered by the State of Kentucky to do four full years of college work and confer degrees. The work now offered is that of the Junior College, freshman and sophomore years. It is still the purpose of the Board of Trustees to keep the expenses of a college education at the minimum, as it kept the expenses of a preparatory education at the minimum when the school was doing only preparatory work. Pikeville Collegiate Institute was ranked in the A class of preparatory schools in the State by the College Association of Kentucky.

The Preparatory Department and the Junior College are now fully accredited by the Southern Association of Colleges and Secondary Schools.

Pikeville College is chartered and supported by the Presbyterian Church, U. S. A. It welcomes students of good character of all denominations. It does not teach the tenets or doctrines of any sect. Its endeavor is to train the young people who come to it for service in Church and State. It believes that this can be accomplished in the highest degree only when the foundations are laid in Christian character. Therefore, its purpose is the development of character founded on the eternal truths of God. To that end the study of the English Bible is required of all its students; only Christian men and women are employed in its faculty; it surrounds the student, so far as that is possible, with a Christian atmosphere.

This college has a mission peculiar to itself. Located, as it is, in the heart of the Kentucky mountains, and easy of access to the mountain counties of Virginia, West Virginia, and Tennessee, it offers an opportunity to the mountain youth of these four States such as cannot be found in any other location near them. We have in these mountain counties material for leadership second to none in the United States. Pikeville College, by its scholarships and opportunities for self-support, makes an education possible to the young people financially unable to go out of the mountains for an education; by its proximity, it stimulates the desire for an education, and by example shows the possibility of an education.

Another purpose of the institution is to increase the efficiency of public schools. It seeks to do this by making public school teachers more proficient. To that end it has maintained a Department of Education for the past thirty years with very satisfactory results. The methods followed in this department are those of the best teacher-training institutions of our country. The course of study is adapted to meet the requirements for the Provisional Elementary Certificate in Kentucky. The departments of education in other states accept work at Pikeville College as applying on the certificates which they issue.

Aim Of Institution

The aim is to lay a solid foundation for broad culture. No person can lay claim to an education whose moral as well as mental faculties have not been cultivated. The purpose of true education is to fit men to live rather than get a living. The part that school and college have in teaching men how to get a living is incidental rather than designed. It comes through the "training of the faculties already active, and awakening and developing the powers

that are dormant; the arousing of the spiritual sense, the kindling of the finer emotions by coming into contact with and understanding of the relations of truth and beauty, which master minds of all times have given through the medium of music and literature." Men who have covered a course in the classics balanced by mathematics and science arranged without thought to their practical, but wholly with a view of their cultural and disciplinary value, will not emerge into the world warped and undeveloped. They will approach what should be the ideal of an education: "The making of men who shall have a keen insight, yet broad vision; quick perception, yet sound judgment; practical wisdom, yet sensitive refinement"; ethical in their dealings with other men, yet having a righteousness that shall exceed the righteousness of the scribes and Pharisees; men whose highest happiness will be found in ministering to others rather than in being ministered unto. Students so trained are trained not only how to live, but have available assets for getting a living. Yet such men are seldom the product of a brief period of cramming. Such training takes years of careful and well directed study from the primary grades through the completion of a college course. It is the aim of Pikeville College to give its students such training as this.

General Regulations

Entrance Requirements

Admission to the Junior College is based on a certificate showing graduation from an accredited high school with at least fifteen acceptable high school units, or by entrance examination. Following is an outline of the entrance requirements. The figures indicate the maximum and minimum number of units that may be offered in each subject. The minimum amount of credit allowed in any one subject is one-half unit.

High school graduates of very high standing whose high school credits may not be those specified below may be admitted on trial after investigation and interview.

Prospective students are invited to call at the college during summer months to discuss their plans and their schedules. Interviews with administrative officers are possible on any day. It is especially recommended that students from accredited high schools call for interviews before college opens, and for possible examination.

1. BASIC UNITS, Required of all students*

English	3 units
Algebra	1 unit

2. ELECTIVE UNITS. In addition to the basic units, a sufficient number of units to make a total of fifteen must be offered from Groups A and B, except that not more than four units may be offered from Group B.

GROUP A

English	1	Mathematics:	
Foreign Languages:		Advanced Arithmetic	$\frac{1}{2}$ -1
French	1-3	Advanced Algebra	$\frac{1}{2}$ -1
German	1-3	Solid Geometry	$\frac{1}{2}$

Drawing—Freehand	$\frac{1}{2}$ -1	Typewriting	$\frac{1}{2}$ -1

Records of college students have shown that training in some foreign language is extremely valuable in college preparation. For this reason, prospective college students are urged to take at least two units in foreign languages; those who expect to take a scientific course should present two units of algebra and at least two units of science, including physics and chemistry.

Students should not present their high school credits in person, but should have them mailed directly to the Registrar by the principal of the high school. If possible these credits should be in the Registrar's office before the opening date of school. An application blank for this purpose will be mailed upon request.

Registration

The school year is made up of two semesters, fall and spring, each of eighteen weeks' duration. Students are expected to register on or before the first day of each semester. They may not register later than the fifth day of classes, except with special permission. No student is enrolled in classes until settlement has been made for all fees due at registration.

Classes are held five and one-half days each week, and persons who register are expected to be able to meet classes at any time between Monday morning and Saturday noon.

* Students offering credits in Problems of Democracy may not offer credits in Economics and Sociology. If a full unit is offered in Problems of Democracy, only one-half unit will be allowed in civics.

Sixteen hours of recitation each week is the normal load. Students registering after the first week may carry only a partial load. Permission to carry more than sixteen hours will be given only when justified by a previous record in high scholarship. No change in schedule may be made, and no course may be dropped, without the approval of the Dean and the consent of the instructors concerned.

No extension or correspondence work with other institutions may be taken by any student in residence without consent of the Dean.

Veterans

Pikeville College is eligible to receive both men and women veterans of the Armed Forces who wish to continue their education. Students may enter under Public Law 16 or Public Law 346.

A special effort is made by the Faculty of Pikeville College to meet the needs of all veterans. Our student body is small enough that individual attention can be given to each one.

A veteran who cannot satisfy the regular admission requirements will be accepted if he is recommended by his former high school Principal, and if he will demonstrate his ability to pursue college studies by passing, with a satisfactory score, one or more standardized tests especially designed for this purpose.

Any veteran who has had three or more months of military training will be excused from Physical Education.

Courses of Study

Six courses of study are offered leading to graduation from the Junior College: the Business Administration, General, Home Economics, Pre-medical, Scientific, and Teachers courses. Each student is required to enroll in one of these courses, and to graduate upon the completion of the two years of work. The courses are described below.

BUSINESS ADMINISTRATION COURSE

Two years of work leading toward a degree in Business Administration, or preparing for the business world.

Teachers Certificates

Pikeville College is recognized by the Kentucky Department of Education, with the privilege of recommending for certificates those students who have satisfied the legal requirements. To qualify for a certificate a student must be at least eighteen years of age, of good character, must have presented the required number of acceptable high school units for college entrance and must have satisfactorily completed the course prescribed for the certificate.

The Provisional Elementary Certificate is issued upon the completion of sixty-four semester hours of college work, including required subjects listed under the Teachers Course. This certificate is valid in any elementary school in Kentucky for a period of three years, and may be renewed for a period of three years on evidence of two years of successful teaching or upon completion of sixteen additional college hours. It may be renewed thereafter for three-year periods on sixteen college hours earned during the life of the certificate.

Students who pursue the Teachers Course and who expect to be recommended for a certificate must complete all requirements for Junior College graduation including participation in the graduation exercises.

Any certificate in effect on September 1, 1936, will continue to be renewed, reissued or extended under provisions in force at the time of issuance of the certificate.

The State Department requires a fee of two dollars for each certificate issued and a fee of one dollar for each certificate renewed.

The Departments of Education of Virginia and West Virginia accept the work of Pikeville College as applying on the teacher's certificates issued in those states.

Absence Regulations

Regular attendance at classes and at the daily chapel services, and conformity to the regulations of the institution are prerequisites for the granting of college credits. The following regulations on attendance govern the issuance of credit:

1. Students are required to attend all classes and chapel.
2. The Dean may excuse the necessary absences of a student from any class to a number not exceeding the credit value of the course.
3. A student having any further absences must apply in writing to the Faculty Committee on Absences for excuse. The application must be made at the Dean's office by the day following the student's return to classes. In addition, he may be required to appear before the Committee.
4. If the Committee find the absence to have been necessary, it will be excused. Otherwise, the student will be assigned three hours of campus police work for each unnecessary absence.
5. Absences by members of college organizations on authorized trips will be excused without penalty.
6. All class work missed for whatever reason must be made up at the direction of the instructor.
7. Three tardy marks are equivalent to an absence.
8. In case of absence from chapel, one-fourth of the quality credit will be deducted for each unnecessary absence.
9. Absences count double on days immediately preceding and following vacations and special holidays.
10. A student may not drop a subject without the consent of both the instructor and the Dean.

System of Grading

At the end of each semester (eighteen weeks) a report of the student's work is sent to the parent or guardian. The following letters indicate a passing grade, and are not subject to change except by repetition of the course:

A, EXCELLENT; B, GOOD; C, AVERAGE, D, POOR.

A grade of D will not receive credit toward graduation or the issuance of a certificate unless the student has a standing of 1.00 or above (average of C). The following grades are not passing, and do not carry credit:

I, INCOMPLETE; F, FAILED

I, if excusable, may be raised to the proper grade; if inexcusable, may be raised to D, by completion of the work. A grade of I must be removed within thirty days after the opening of the semester following, or in case of a protracted illness, within thirty days after the student's return to class. A student with a standing of less than 1.00 (average of C) is placed on probation for the following semester.

Requirements for Graduation

The general requirement for graduation from the Junior College is sixty-four semester hours of work in one of the regular courses of study, and, in addition, one hour of Physical Education required of all students. The student must have at least sixty-four quality credits, based upon the grade of work done. Quality credits are awarded as follows:

Grade of A gives three quality credits per semester hour.
Grade of B gives two quality credits per semester hour.
Grade of C gives one quality credit per semester hour.
Grade of D gives credit, but no quality.
Grade of F is failure. No hours are earned.

For example, a semester grade of B in a five-hour subject would give ten quality credits; a grade of C in a three-hour subject would give three quality credits.

The scholastic standing of a student is the ratio of the number of quality credits to the number of semester hours taken. For example, a student carrying sixteen semester hours and receiving thirty-two quality credits in one semester would have a standing of 2.00 (average of B) for that semester. A standing of at least 1.00 (average of C) is required for graduation or for recommendation for a certificate. Students received by Pikeville College on transfer will not receive credit for D work, or its equivalent.

Transcripts

Upon application, a student who leaves the College is issued a certified transcript of his record, without charge. Application for a certificate is considered the equivalent of a transcript. A fee of one dollar is charged for each additional copy.

A transcript of credits will not be issued to a student whose account with the College has not been settled.

Summer Session

A summer session is held each year, in which six weeks' work is done. Classes are offered which duplicate those of the regular school year. The subjects given are limited to those for which there is sufficient demand. A subject carrying three semester hours credit meets two fifty-minute periods six days each week. Six semester hours is the normal load, or an average of two classes per day during the session.

Students who take college work in the summer sessions must satisfy the usual college entrance requirements, and are expected to register on the opening day of the session.

In the summer of 1942 a second summer term of five weeks followed immediately at the close of the first session. This opportunity to continue study during the summer met with such approval that a second session was offered in 1943, in 1944, in 1945, in 1946, and will be offered in 1947.

Spring Term

A spring term of nine weeks has been organized to meet needs arising from the war situation. Courses are offered in the field of elementary education.

Departments of Instruction

Following are brief descriptions of the subjects offered in the various departments, with the amount of credit each carries stated in semester hours. Subjects ordinarily taken in the freshman year are numbered from 100 to 199; those ordinarily taken in the sophomore year from 200 to 299. Courses designated with an S are offered during the summer session only. In the case of subjects continuing throughout the year, the work of both semesters is described under one heading, and the number of semester hours stated refers to the credit given for each semester.

The College reserves the right to omit from the schedule any subjects for which there may not be sufficient demand, or which for any other reason it may be deemed inadvisable to offer.

30: Tennis, Badminton, Track, Etc.

A study of various games through actual participation. Intended to give the student a playing knowledge of various games.

One-half hour.

Physical Education 220: Plays, Games and Safety Education for Elementary Schools.

A study of plays and games adapted to the elementary school and actual experience directing these in the Training School with special attention to safety education. Attention is given to the fundamental objectives of the Health and Physical Education Program and the use of various exercises and games to attain these objectives. Prerequisites: P. E. 110.

Two hours.

Science

In science courses which include laboratory work, a fee is required in order to cover the cost of materials and the use of apparatus. This fee is payable at the beginning of each semester, and is not refunded. Apparatus which is broken or lost is charged to the student, and is paid for at the close of the semester.

Biology 101: General Botany.

A nature study course which will consist largely of field trips and laboratory work. The study of local flowers, ferns, and trees will be combined with systematic botany. Bring old clothes and comfortable hiking shoes. Fee, \$3.00.

Three hours.

Biology 102: General Zoology.

A nature study course in which a broad survey of the animal kingdom will be made, with especial emphasis on local fauna. A large part of the time will be spent in field and laboratory work. Bring old clothes and comfortable hiking shoes. Fee, \$3.00.

Three hours.

Biology 121: Introductory Biology.

The purpose of this course is to help the student get acquainted with some of the living things about him, including some knowledge of their structure, life habits and processes. It is planned for teachers or for those not intending to major in biology, or for those not enrolled in scientific courses. Since much of the time is spent in field work, clothes and shoes suitable for hiking are important. Laboratory fee, \$3.00

Five hours.

Biology 113, 114: General Biology.

The object of this course is to gain an understanding of the large problems common to zoology and botany. The approach is thus obtained for the broad knowledge desirable for liberal education, and for the more advanced work prerequisite to the study of medicine, forestry, etc. Students who plan to take this class should provide themselves with clothing suitable for field trips. Three hours of lecture and recitation, three hours of laboratory, each week. Fee, \$3.00 each semester.

Four hours, each semester.

Biology 221: Comparative Anatomy.

Invertebrates. An intensive study of the anatomy of representative forms of the various phyla, including comparative organology and physiology. Course offered when demand is sufficient. Fee, \$4.00

Four hours.

Biology 222: Comparative Anatomy, Vertebrates.

An intensive study of representative vertebrate forms including comparative organology and physiology. Course offered when demand is sufficient. Fee, \$4.00

Four hours.

Science 105: The Physical Sciences.

A study of the underlying principles of chemistry, physics, geology, climatology, astronomy, and their relationship to every-day life. Elective. Laboratory fee of 50 cents. No prerequisites.

Three hours.

Chemistry 113, 114: General Chemistry.

The fundamental principles of theoretical chemistry, together with a study of the most important metals and non-metals. The laboratory work of the spring semester includes practice in elementary qualitative analysis. Three hours of lecture and recitation, three hours of laboratory each week. Fee, \$4.00 each semester. **Four hours, each semester.**

Chemistry 215: Elementary Organic Chemistry.

A brief course for Home Economics students and others who do not expect to go further in the study of Chemistry. Emphasis is placed upon the chemistry of the various foods and textile fibers. Three hours of lecture and recitation, two hours of laboratory each week. Fee, \$3.00. **Four hours.**
(Not open to those who have credit for Chemistry 113, 114, Chemistry 223, 224, or equivalent.)
221-222

Chemistry 223, 224: Organic Chemistry.

A course designed for students who contemplate the study of professional chemistry or of medicine. The laboratory work includes the preparation and purification of a number of typical organic compounds. Pre-requisites: Chemistry 113, 114. Three hours of lecture and recitation, three hours of laboratory each week. Fee, \$4.00 each semester. **Four hours.**

Geography 111: Principles of Geography.

A study of the basic principles underlying the science of geography, and of its relation to the physical and economic development of man. Materials and methods of teaching the subject in the elementary grades are considered. **Three hours.**

Hygiene 117: Public Health and Sanitation.

A course primarily for teachers, dealing with the principles of health and hygiene. **Three hours.**

Physics 114: Household Physics.

The basic principles of Physics—Mechanics, Heat, Electricity, Sound and Light—and their everyday applications in household machines, heating and refrigeration, electrical machines, telephone and radio, acoustics and lighting. Three hours of lecture and demonstration each week. Fee, \$1.00. **Four hours.**
(Not open to those who have credit for Physics 223, 224 or equivalent.)

Physics 223, 224: General Physics.

A course in the fundamental principles of physics, the development of its laws, and practical application of them. The theories of mechanics, heat, magnetism, electricity, sound and light are presented in lecture and demonstration, and are supplemented by practical work in the laboratory. Prerequisite: A fair degree of mathematic maturity. Fee, \$2.50 each semester. **Four hours, each semester.**

Preparatory Department

The Preparatory Department of Pikeville College includes the Academy, covering the four years of high school, and the Training School, composed of the elementary grades.

The Academy is accredited by the State Department of Education, and is a member of the Southern Association of Colleges and Secondary Schools.

The Training School is fully approved by the State Department of Education, and each teacher is commissioned by the Division of Teacher Training for the training of elementary teachers through directed teaching.

Advantages of the Academy

The Academy accepts its responsibility as a part of a Christian educational system to make itself felt as a strong moral force influencing every phase of the mental development of its students. Classes in Bible are supplemented by daily chapel programs and the example of Christian teachers.

In addition to the religious influence, the Academy assures all of its students an unusual amount of personal attention and guidance, development in personality from frequent participation in extra-curricular and social activities of both the Academy and College, access to the superior science equipment of the College, and the advantages of the college library in addition to the considerable library of the Academy.

Students also profit from being part of a student body that is definitely college-minded. All courses are planned toward preparation for college. Almost without exception our graduates are eager to continue their education in college. A very high per cent of them enter college each fall. As a part of the be-prepared-for-college emphasis, special stress is put on English fundamentals, mathematics, and the languages. The Academy offers the unusual advantage of four years of mathematics, four years of Latin, and two years of Spanish.

Any student planning to enter a college with peculiar entrance requirements may adjust his course to meet those requirements. However, it is not necessary for a student to choose his college until the end of his senior year. Graduation from any of the three courses offered will meet the entrance requirements of a great majority of colleges.

DESCRIPTION OF COURSES

Due to small classes some courses taught in the junior and senior years are offered in alternate years, but care is taken to see that all regular students have the opportunity to complete whichever course they elect.

English I: grammar ½ unit; literature ½ unit.
 English II: grammar ½ unit; literature ½ unit.
 English III: American Literature; grammar ½ unit.
 English IV: English Literature; grammar ½ unit.
 Science I: Biology, 1 unit.
 Science II: Physics, 1 unit.
 Science III: Chemistry, 1 unit.
 Latin I: grammar, 1 unit.
 Latin II: Stories and Caesar's Commentaries, 1 unit.
 Latin III: Cicero's Oratories, 1 unit.
 Latin IV: Virgil's Aeneid, 1 unit.
 Math. I: Algebra I, 1 unit.
 Math. II: Algebra II, 1 unit.
 Math. III: Plane Geometry, 1 unit.
 Math. IV: Solid Geometry, ½ unit. Basic Mathematics, ½ unit.
 Social Science I: Ancient and Mediaeval History, 1 unit.
 Social Science II: Modern European History, 1 unit.
 Social Science III: American Political History, 1 unit.
 Social Science IV: American Government, ½ unit.
 Economic Geography, ½ unit.
 Spanish I: grammar, 1 unit.
 Spanish II: grammar and reading, 1 unit.
 Bible, ¼ unit, each year.

A total of sixteen units is required for graduation from the Academy. A unit may be defined as the equivalent of one subject taken through the entire school year. Four subjects, with Bible one semester each year, is the normal

load. Five subjects may be taken only when the student has evidenced scholarship above the average. No credit will be given for less than one unit of foreign language.

In science courses requiring laboratory work an extra fee is charged to cover the cost of materials and equipment. Breakage is charged to students responsible. The fees are as follows:

Biology	50 cents each semester
Chemistry	\$3.00 each semester
Physics	\$1.50 each semester
Typewriting	\$5.00 each semester

Physical training is required of all students through the Academy years. Students who may be excused from this requirement for physical disability or ill-health may be required to submit a certificate from a physician appointed by the College. Appropriate uniforms are required. A fee of fifty cents (50c) each semester is levied to cover bath supplies.

ACTIVITY FEE

A fee of two dollars (\$2.00) to cover student activities (student organizations, athletics, etc.) is to be paid by all Academy students each semester.

SYSTEM OF GRADING

Reports of pupils in the Training School are sent to parents at the close of each six weeks period. Report cards for students in the first year of the Academy are likewise sent to parents each six weeks. Reports of all students in the Academy are mailed to the parents at the close of each semester. Training School reports are self-explanatory. In the Academy grades are indicated as follows:

A, EXCELLENT; B, Good; C, Average; D, Poor;
I, INCOMPLETE; F, FAILED

A grade of I may be raised to a passing grade by completion of the work. Although a D grade is considered passing, a student with an average below C will not be recommended for college entrance.

General Information

LOCATION

Pikeville College is located at Pikeville, Kentucky, the metropolis of the Big Sandy Valley, on the Chesapeake and Ohio Railroad, one hundred and ten miles south of Ashland, Kentucky; on Federal Highway No. 23 connecting Detroit, Michigan, and Miami, Florida; also Federal Highway No. 119. The C. C. & O. connection with the C. & O. at Elkhorn City gives easy access by rail from Virginia and Eastern Tennessee. Bus service connects with the Norfolk and Western Railroad at Williamson, West Virginia. Bus lines make connections at Paintsville and at Jenkins, and Ashland, Ky., so that Pikeville is easily accessible from the surrounding counties of Kentucky, Virginia, and West Virginia. Situated in the Big Sandy Valley, surrounded by the foothills of the Cumberland Mountains, it would be difficult to find a more beautiful and healthful location for a college town.

BUILDINGS

ADMINISTRATION BUILDING: This modern building was erected in 1926, and contains offices, sixteen large class rooms, laboratories, library, and an auditorium, which will seat four hundred. An Estey pipe organ has been installed in the auditorium. The chapel, or auditorium, together with the organ, was a gift of Mrs. Delos O. Wickham in memory of her husband, whose name it bears. Mrs. William Thaw was another generous donor to the building. All of the money which came to Pikeville College from the Kentucky Presbyterian Education Movement was used in the construction of this building.

WICKHAM HALL: This dormitory for young men is located beside the Administration building on the hill overlooking Pikeville. This is an excellent building of brick, concrete, and steel, consisting of three stories and basement, entirely fireproof throughout. It contains rooms to accommodate ninety-six young men, in addition to a kitchen, dining room, rooms for faculty supervisors, large bathrooms on each floor, and well-furnished recreation room. The building is heated by steam, electrically lighted, and equipped with apparatus to maintain a constant supply of hot water.

THE DERRIANA: Mr. John A. Simpson provided this dormitory as 'A Christian home for women' in memory of his sister, Lucinda Derriana Simpson. It is a brick and stone structure of four stories. It is heated by steam, lighted by electricity, has hot and cold water, bath rooms, and all modern conveniences. It would be difficult to find a dormitory more conveniently arranged and more completely equipped for the comfort of young women. The purpose of the donor was to erect a building in which the occupants would find a home of Christian culture and refinement during their school life. The social and home life with which the students are surrounded is calculated to lead to that Christian culture and development so essential to the highest type of womanhood. The dormitory site is on an elevation overlooking the town, affording a most beautiful view of mountain scenery. It is surrounded by some four acres of ground.

THE GYMNASIUM: The old gymnasium burned in January, 1946. The possibility of building a new one was investigated, but building restrictions were such that it did not seem advisable to start. An investigation was then made as to the feasibility of getting some type of building from Government Surplus Property. Federal Officials were sympathetic with our needs, and co-operated. A Butler Steel Airplane Hangar has been secured and will be erected. The foundation has been completed and the architects and contractors have assured the College that the gymnasium will be completed by the opening of the fall semester in 1947. The gymnasium is to be a modern structure, 120 x 140 feet.

OFFICIAL RESIDENCES: Houses are furnished for the president and the dean.

FACULTY RESIDENCES: Three faculty homes are owned by the college and are occupied by professors' families.

HENDRICKS HALL: The original frame building of Pikeville Collegiate Institute on "The Old Campus" serves as a residence for faculty members.

THE TRAINING SCHOOL: The Training School is housed in a substantial two-story brick building on "The Old Campus." A chapel and very serviceable library are here, in addition to adequate rooms, well equipped.

THE FARM: Early in 1944 the College bought a thousand acre farm on Johns Creek. It is one of the best farms in Eastern Kentucky and its purchase was made possible through the interest of Mr. J. D. Francis, a member of the Board of Trustees of Pikeville College. The farm will be developed with a three-fold purpose in view: To furnish

food for the dining room, provide work for students who need help to get an education, and act as a demonstration center to encourage better farming in this region. The Board of Pikeville College by unanimous vote named the above-mentioned farm "The Francis Farm" in memory of Mr. Francis' father and mother.

TEACHERS' RESIDENCE

Surplus building material was obtained from an army camp in North Carolina to erect this modern two-story building. It is a home for the unmarried faculty members. It consists of individual suites of living room and bedroom with a large common living room, dining room, and kitchen.

ENDOWMENT AND INCOME

The endowed funds of the College amount to over \$350,000. The income from this fund helps to pay the cost of instruction. Annual gifts from churches and friends are important.

The tuition charges paid by students pay roughly one-third of college expenses. For every dollar the individual student pays for tuition, the College expends, in addition to that dollar, approximately two dollars.

A campaign is already launched for additional endowment funds required by the growth of the College.

RELIGIOUS LIFE

As stated in another place, the school was established, is supported, and is controlled by the Presbyterian Church, U. S. A., but is non-sectarian. While students receive regular and systematic instruction in the English Bible, the tenets of no church are taught. All students are required to be present at the chapel exercises of one-half hour each day.

Each year, soon after the opening of the spring semester, a series of student meetings is held. These services are in charge of some outstanding Christian leader, who, in addition to his daily addresses, strives to meet in personal conference each of the students. These meetings have proved most helpful in quickening the spiritual life of the school.

There are six strong churches in the town: Presbyterian, Methodist, Christian, two Baptist, and Episcopal. The students receive a warm welcome at any of the churches, and each student is expected to be present at some one of them each Sunday. The aim of the religious life of the school is to lead the student to the Lord Jesus Christ, to develop a high type of Christian character, and a potential Christian leadership for both Church and State.

ATHLETICS

Pikeville College believes in the training of the body as well as the mind, and in accordance with this belief makes provision for the physical development of its students. Intramural sports along competitive lines between classes are organized in basketball, diamond ball, volleyball, tennis, and other games.

The college basketball team, known as the "Bears," has completed a successful season again this year, under the direction of a well-trained and competent coach. All matters pertaining to athletics are under the general supervision of the Athletic Council, composed of representatives of the faculty, alumni, and student body.

A very large percentage of all students engage in and are trained in some outdoor sport. An Academy team, "The Cubs" has an honorable record. Track and field athletic teams feature spring activities.

HOSPITALIZATION

Pikeville College has always been anxious to maintain good health among the students. The doctors of Pikeville have ever been ready to come when needed. A plan has now been worked out with the Methodist Hospital whereby students get hospitalization at a very low cost. A fee of \$2.25 per semester is charged each student for this service.

OTHER STUDENT ACTIVITIES

In addition to athletics, the student at Pikeville College finds a variety of valuable extra-curricular activities. Among them may be mentioned the glee clubs; "The Record," the school newspaper; "The Highlander," the college year book; the F. T. K. Club; the Young Women's Christian Association. All the school activities are under the supervision of members of the faculty. Students are encouraged to take an active part in at least one extra-curricular activity.

LIBRARY

The library is "the heart of the college." The family of Mrs. C. C. Bowles, a very early graduate of Pikeville Collegiate Institute, have made physical expansion possible, with modern steel stacks and handsome oak chairs and tables for the commodious reading room. During the past year a large number of books have come to the library through the efforts of Mrs. Ralph B. Hindman of Buffalo, N. Y. Dr. A. P. Higley, a valued member of Pikeville Col-

lege Board of Trustees for many years, had collected an excellent library on Abraham Lincoln. After his death his complete Lincoln collection was given to the library by his family. There are over eleven thousand volumes (11,000) of carefully selected, serviceable books. A generous list of periodicals is available. The library is catalogued according to the Dewey system, and is in the charge of a trained librarian.

GOVERNMENT

The conduct of the student body is so uniformly excellent that faculty action is rarely required. Each student is expected to conform cheerfully with the requirements of the school, and no student will be allowed to remain in the school whose influence, in the judgment of the Faculty, is detrimental to the interests of the institution. Parents who are not willing that their children should obey promptly are requested not to send them to us. Students are required to conduct themselves properly at all times, whether on or off the campus, and to pay for any property that may be destroyed or damaged by them. The College reserves the right to dismiss, without any refund of fees, any student whose conduct is unsatisfactory. All students sign the following pledge upon registration:

Student Pledge

I hereby pledge myself to the following conditions upon which I am admitted as a student to Pikeville College:

1. I promise to conform willingly to all of the regulations of the College.

2. I promise to abstain from the use or possession of alcoholic beverages of any kind, either on the campus or elsewhere, while a student of this college.

3. I understand and agree that any infraction of the above regulations, or any conduct which in the opinion of the school authorities is detrimental to the interests of the institution, will make me liable to immediate dismissal from the College without any refund of fees.

SCHOLARSHIPS

Realizing that one of the prime purposes of a College should be to develop sound scholarship, Pikeville College has decided to offer free tuition to the student who ranks high-

est in scholarship in the high school graduating classes in each of the following counties: Pike, Floyd, Martin, Lawrence, Magoffin, Perry, Leslie, Johnson, and Letcher in Kentucky; Mingo in West Virginia; Buchanan and Dickinson in Virginia; and also in the Pikeville Independent District. The high ranking graduate will be eligible for the above award when certified to the College by his or her superintendent.

These scholarships will continue to be granted to a student so long as he remains in the College if his work and conduct prove to be satisfactory.

STUDENT AID

Pikeville College grants "workships" (not free scholarships) to certain students of superior record and genuine need. Work is offered in the amount of ten hours a week for the year to pay full tuition (\$120.00); or fourteen hours a week to pay tuition and room rent. No applicant will be considered whose high school record has been below a C average, and no student will be continued in a workshop if his college average falls below C in any semester. Time for correspondence and investigation must be allowed after each application is received; a confidential statement of family finance is also required. No workshop is awarded without an application accompanied by a \$5 deposit which is later applied to the account of a student at entrance.

STUDENT LOAN ENDOWMENT FUND

Income from the following invested funds is made available to students of the Sophomore class in the form of student loans. Application for such loans must be made in writing.

The Elizabeth A. Smith Scholarship Fund, endowed with \$2,000 by her daughter, Mrs. Mary Smith Pegan.

The Mrs. Augusta Dana Chase Scholarship Fund endowed with \$1,000 by the Southern Industrial Educational Association through the Philadelphia Auxiliary.

The Clara E. Simmons Scholarship Fund, endowed with \$500 by Mr. and Mrs. Conrad Simmons.

The George N. Reed Scholarship Fund, endowed with \$1,000 from the estate of the late George N. Reed.

The George A. Taylor, Jr. Book Fund, endowed with \$1,000 by the First Presbyterian Church of Wilkinsburg, Pennsylvania.

The Mrs. Rosanna Powell Loan Fund, endowed with \$100.

The Edith Loan Fund, endowed with \$2,105.

WINTER ON THE CAMPUS

THE BIG ROCK

The Park Presbyterian Bible School Loan Fund, endowed with \$100.

The Robert A. Cochran Loan Fund, endowed with \$5,000 from the estate of the late Robert A. Cochran.

The W. A. Patterson Loan Fund, endowed with \$100 from the estate of W. A. Patterson.

The Frank Mechling Loan Fund, endowed with \$100.

The Melzar D. McClelland Fund, endowed with \$100.

The John Strong Loan Fund, endowed with \$200.

The Louise Landrum Rummel scholarship fund established by Professor Robert E. Rummel, endowed with \$300.

The Dr. A. P. Higley Scholarship Fund, endowed with \$1100 by friends in Cleveland.

The Margaret E. Record Bible Class (women's class) of the Pikeville Presbyterian Church has for the past several years made regular loans to selected students. As these loans are repaid a revolving loan fund is being established in the name of the class.

The Sophomore Class of 1941 established the beginnings of a student loan fund to be known as the Sophomore Fund. It is the hope of the Class that future classes will add to this fund from year to year.

PRIZES

The Dr. W. C. Condit prize of a gold watch is awarded each year to the member of the junior college graduating class who has achieved the highest scholastic standing over the entire junior college course, at least sixty-four semester hours of which shall have been taken at this college.

The Margaret E. Record prize is awarded under similar conditions to the member of the junior college graduating class who has achieved the second highest standing.

No student shall be eligible for either of these prizes whose scholastic standing over the entire junior college course is less than 2.00 (average of B), and whose attendance and conduct are not satisfactory.

The May E. Day prize of a \$25 Government Savings Bond established by Mr. William Franklin Day in memory of his mother is awarded each year to the member of the academy graduating class who has achieved the highest scholastic standing over the entire academy course, at least the last three years of which shall have been taken at Pikeville College Academy. No student shall be eligible for this prize whose scholastic standing is less than an average of B, and whose attendance and conduct are not satisfactory.

TUITION AND SPECIAL FEES

Tuition for college students is \$60.00 per semester; for students in the Academy, \$20.00 per semester; tuition is payable in advance. Since the expenditures for a semester are based largely upon the enrollment at the beginning of that semester, tuition will not be refunded after the first week. Workshop students leaving before the end of the semester will pay that part of their tuition or room unearned. When, however, a student is compelled to be absent from school on account of proven illness, for more than nine weeks, one half of the tuition will be credited toward the tuition of the same student in a subsequent semester.

Students carrying fewer than 12 semester hours and more than 4 hours are charged a tuition fee of \$4.50 per hour; students carrying 4 hours or fewer are charged a tuition fee of \$5.00 per hour.

All College students pay at registration, each semester, an activity fee of \$5.00. This fee entitles the student to admission to all the regularly scheduled athletic and forensic contests of the year; the use of the gymnasium at specified times; subscription to the college newspaper, "The Record"; admission to all Lyceum entertainments, and one copy of the College year book, "The Highlander." Activity fees are not refunded.

In most of the science classes laboratory fees are charged, the amounts of which are listed under the descriptions of the subjects. These fees are payable at the beginning of the semester and are not refunded.

A fee of \$5.00 per semester is required of each student who registers for typewriting.

A fee of \$5.00 per semester is required of each student who registers for directed teaching.

All graduates pay a fee of \$5.00, which covers the cost of diploma, and cap and gown rental.

A fee of \$4.50 per semester is charged for pipe-organ rental for one-hour practice period per day.

Early registration is advised. A late registration fee of \$2.00 is assessed against all students who enter after the registration days appointed. The fee may be avoided, in case of proven necessity, if arrangements be made with dean or registrar in advance.

Registration is not complete and no student is enrolled in any class, until satisfactory settlement for all fees due at the opening of the semester, including room rent, tuition, laboratory and activity fees, has been made with the Treasurer's office.

ROOMS

Rooms in the Derriana are for young ladies; the rent is \$27.00 per semester for each student.

Rooms in Wickham Hall are for young men; the rent is \$27.00 per semester for each student.

Room rent is payable at the beginning of each semester and is not refundable.

Each student rooming in the dormitories must furnish sheets, blankets, pillow slips and towels. Upon entering the dormitory the student pays the matron a key deposit of \$1.00 which is refunded when the key is returned.

Rooms may be reserved before the opening of the semester by making a deposit of \$5.00 with the Secretary. This reservation fee will not be refunded, but will be deducted from the room rent payable at registration.

All out-of-town students must live in dormitories unless granted permission, in advance, to live elsewhere by the president or the dean. Such permission may be granted to students who can make large savings through opportunities to work for room and board; or to students who can live in homes of close relatives.

All dormitory students board in Wickham Hall dining room. A semester's board costs \$90.00.

A room deposit fee of \$3.00 per semester is charged to each dormitory student. This fee will be refunded at the end of the semester, provided no damage has been done to the room.

TEXTBOOKS

A student book store, in which used textbooks are purchased and sold, is operated on the main floor of the Administration Building. Students may save money by the purchase of used textbooks, and by the sale of books after the completion of courses.

SUMMARY OF EXPENSES

Following are estimates of the expenses of one semester in each department:

Junior College

*Tuition	\$ 60.00
Activity Fee	5.00
Room	27.00
Laboratory fee (average)	3.00
Books (estimated)	11.00
Board	90.00
Hospitalization	2.25
**Room deposit	3.00
ESTIMATED COST FOR ONE SEMESTER ...	
	\$201.25

Academy

Tuition	\$ 20.00
Room	27.00
Laboratory fee (average)	2.00
Books (estimated)	10.00
Board	90.00
Activity fee	2.00
**Room Deposit	3.00
ESTIMATED COST FOR ONE SEMESTER	\$154.00

* Special students carrying 4 hours or fewer pay tuition at the rate of \$5.00 per hour.

** Room Deposit Fee is refunded if no damage is done to the room.

SELF-SUPPORT

There are opportunities for a number of students to support themselves partially while in school. Several boys and girls can be supplied with work in the dining room. A few boys are employed in doing janitor work to help pay their expenses. There are also some openings for boys to work in town. They will be permitted to do this as long as it does not interfere with their school duties.
